

In the claims:

Please amend the claims as follows:

1-10 (cancelled)

11. (new) Lubricating oil for food industry, the lubricating oil comprising:

turnip rapeseed oil or rapeseed oil as a main component,

auxiliary lubricant, which is selected from the following agents:

pharmaceutical grade white oil,

methyl ester (RME), ethyl ester (REE) or propyl ester (RPE) of turnip rapeseed oil or rapeseed oil,

emulsifier, which is selected from the following agents:

lecithin,

acetic acid esters of mono- and diglycerides of fatty acids,

sucrose esters of fatty acids,

antioxidant, which is added synthetic tocopherol.

12. (new) The lubricating oil according to claim 11, wherein the lubricating oil is based on turnip rapeseed oil or rapeseed oil.

13. (new) The lubricating oil according to claim 11, wherein the lubricating oil is a slicer or divider oil, lubricating oil for molds and pans, or pan washing oil.

14. (new) The lubricating oil according to claim 11, wherein the emulsifier is hydrolyzed lecithin.

15. (new) The lubricating oil according to claim 11, wherein the auxiliary lubricant is pharmaceutical grade white oil, possibly supplemented with inert fraction obtained from hydrogenated turnip rapeseed oil or rapeseed oil.

16. (new) The lubricating oil according to claim 11, wherein the oil comprises 0.1 to 1.5 weight-% of lecithin, and the added tocopherol comprises gamma and delta tocopherols in an amount of 0.005 to 0.03 weight-% in total.

17. (new) The lubricating oil according to claim 14, wherein the oil comprises 0.1 to 1.5 weight-% of lecithin, and the added tocopherol comprises gamma and delta tocopherols in an amount of 0.005 to 0.03 weight-% in total.

18. (new) The lubricating oil according to claim 16, wherein the amount of lecithin is 0.5 to 1.0 weight-%.

19. (new) The lubricating oil according to claim 11, further comprising: citric acid.

20. (new) The lubricating oil according to claim 14, further comprising:  
citric acid.

21. (new) The lubricating oil according to claim 15, further comprising:  
citric acid.

22. (new) The lubricating oil according to claim 16, further comprising:  
citric acid.

23. (new) The lubricating oil according to claim 17, further comprising:  
citric acid.

24. (new) The lubricating oil according to claim 11, further comprising:  
aroma material.

25. (new) The use of the lubricating oil according to claim 11 as lubricating oil for  
slicers and dividers in the food industry, especially in bakeries.

26. (new) The use of the lubricating oil according to claim 14 as lubricating oil for  
slicers and dividers in the food industry, especially in bakeries.

27. (new) The use of the lubricating oil according to claim 19 as lubricating oil for

slicers and dividers in the food industry, especially in bakeries.

28. (new) The use of the lubricating oil according to claim 23 as lubricating oil for slicers and dividers in the food industry, especially in bakeries.

29. (new) The use of lubricating oil according to claim 11 as lubricating oil spread by means of mist lubrication in slicers in the food industry.

30. (new) The use of lubricating oil according to claim 20 as lubricating oil spread by means of mist lubrication in slicers in the food industry.

31. (new) The use of lubricating oil according to claim 11 as lubricating oil of a blade of a bread slicer, in slicing bread which is at the temperature of 40°C to 60°C.

32. (new) The use of lubricating oil according to claim 14 as lubricating oil of a blade of a bread slicer, in slicing bread which is at the temperature of 40°C to 60°C.

33. (new) The use of lubricating oil according to claim 19 as lubricating oil of a blade of a bread slicer, in slicing bread which is at the temperature of 40°C to 60°C.

34. (new) The use of lubricating oil according to claim 23 as lubricating oil of a blade of a bread slicer, in slicing bread which is at the temperature of 40°C to 60°C.

35. (new) The use of the lubricating oil according to claim 11 as lubricating oil for baking molds or pans, or as pan washing oil, especially in bakeries.

36. (new) The use of the lubricating oil according to claim 12 as lubricating oil for baking molds or pans, or as pan washing oil, especially in bakeries.

37. (new) The use of the lubricating oil according to claim 19 as lubricating oil for baking molds or pans, or as pan washing oil, especially in bakeries.
